

QC-100 Part Counter

SMT Counter and Inspection Station

The QC-100: Innovative technology that you can "count" on for your production needs. The QC-100 is an economical pocket counter designed for any style of surface mount carrier. It accommodates all types of SMD carrier tapes; embossed, punched clear or opaque.

This competitively priced counter is portable, yet provides a large generous work area allowing for potential rework of tape without the removal of the reel.

Setup is quick and easy with our operator friendly pocket pitch guide; total count displays up to 6 digits in large easy to read numbers.

The QC-100 offers...

- Accepts reel widths from 8mm to 72mm
- Accommodates part pitch from 2 to 72mm
- 7" and 13" reel diameters standard (optional 22" on order)
- Count rate up to 1000 parts per second
- Accurately counts forward or reverse directions
- Generous work area for rework or inspection
- Easy access to cut tape for kitting
- Easy to read 6 digit readout
